

IFA Back Office Suite 2008

IFA Back Office Suite 2008, a system that allows you to access anywhere, offers ways to ease daily operational process and to enhance customer services satisfaction. And all you need in a IFA are solutions that include:

1. Document Management System
2. Internal Operational Portal
3. Client Login Portal
4. Enterprise Portal

1.Document Management System – OSDOC

A system that connects with your scanners to optimize the workflow of your documents including:

- Application Forms
- Policy Documents
- Personal Particulars Documents

2.Internal Operational Portal

A user-friendly internal portal to ease daily operations:

- Client Information Management
- Policy Management
- Agency Management

3.Client Portal

A platform for your customers to view their policy and values online:

- Consolidated e-Statement
- Personal Particular Update

4.Enterprise Portal

An enterprise website that serves as a platform to

- Increase the awareness towards your enterprise
- Enhance customer service satisfaction

How it helps the communications?

We also serve as a linkage to facilitate the communications between the Clients, the Agents, the Accounts and the Principals. This connection synthesizes the high operational efficiency which promotes the success of your business.

How to obtain?

With a monthly rental basis of only few thousand per month, you could then obtain our IFA Back Office Suite 2008 to eliminate much IT effort. To succeed in your business, IFABOS can help!
